Profile

- Skill-Oriented IT Engineering Undergrad with work experience in Deep Learning, Machine Learning, Neural Networks, and automation technologies. Developed projects using CNN algorithm for Mute and Blind people Research Paper has been accepted by Springer Foundations. I have got a keen interest in writing Technical blogs as well. Seeking to leverage the first-hand Professional Experience to become a LEAD ML Developer at a Young Age.

Experience

Tata Communications, *Project Intern*

2020 Sep – present
Mumbai, India

- Working on Real-Time Facial Sentimental Analysis Model using Deep Learning Architectures.
- A deep-learning model with 98% accuracy has been achieved.
- Deploying it on miniaturized end edge device.

INDIAN INSTITUTE OF TECHNOLOGY-KHARAGPUR, *Machine Learning Intern*

2020 Aug

- Worked under Safety Analytics for analyzing Construction Site Catastrophe reports.
- Applied Chunking and Vectorization to classify causes and chunk out fatal objects.
- A Hybrid Neural Network proposed with an Avg. F1 Score of 0.89.

Projects

Sign to Speech Conversion, *An Automated System for Mute People*

- Developed Deep-Learning Model with CNN which classifies input sign language gestures into Speech Modules.
- Classified and Developed a classifier with Accuracy of 99% eliminating Overfitting conditions.

VISION-I, *A Blind Assistance System*

- Blind assistance system developed using TensorFlow APIs.
- Assists the Blinds in Identifying Objects in Real-Time for Obstacle Detection and Navigation
- Estimates an approximate distance and generates the voice alerts.
- Research Paper accepted by ICMLIP Conference.

Safety Analytics, *Construction Site Accident Analysis*

2020 Aug – present

- A project under IIT KHARAGPUR Prof. O Bala Krishna.
- Worked under Safety Analytics for analyzing Construction Site Catastrophe reports.
- Applied Chunking and Vectorization techniques to classify causes, chunk out fatal objects for prevention.
- A Hybrid Neural Network proposed with an Avg. F1 Score of 0.89.

Education

Vishwakarma Institute of Technology, *Bachelor of Technology*

2018 Aug – present
Pune, India

- Area of Specialization: INFORMATION TECHNOLOGY

MacroVision Academy, *Higher Secondary*

2016 May – 2018 May
Burhanpur, India

- XII CBSE Boards : 84%

Christ Jyoti Senior Secondary School, *High School*

2012 Oct – 2016 May
Satna, India

- X CBSE BOARDS CGPA: 9.6 /10

Skills

C • C++ • Python • Deep Learning • Machine Learning • Neural Networks • Natural Language Processing
Leadership • Communication • Team Management

Certificates

Machine Learning and DataScience Bootcamp

By LearnCodeOnline

Neural Networks and Deep Learning

Issued by: Coursera

Introduction to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning

Issued by: deeplearning.ai

Extra-Curricular

Blogging and Youtube

- A Technical Blog  maintained under Medium.
- A Youtube Channel  for the ML Projects Accomplished.

GedIT Coding Club, Machine Learning Trainer

2020 Sep – present

- Conducting technical workshops in the field of Machine Learning and Deep Learning.
- Mentoring Students with Industry Based ML and DL Applications.
- Coordinating cross-domain Responsibilities.

The Robotics Forum, Administrator and ML Developer

2020 May – present

- Directing smooth and interactive conduction of Technical Workshops.
- Accelerating Hands-on-Learning experience.
- ML Developer: Accomplishing ML Projects for the club.

KPMG, Data Analytics Consultant Virtual Internship

- Developed an Analysis model for accelerating drive in sales.
- Used several correlations and Heatmap plotting techniques to carry out an analysis.
- Learnt to deal with Data Preprocessing Schemes

Freelance Marketing Team Lead

- Accelerated Business Development, Follow-Up Strategies practically with on-field interaction.
- Created and handled a team of 20+ associates. As a Team achieved a total turnover of 0.1 million within 3 months.
- Conducted Talk Seminars for the Promotions of the Organisations.
